## Game requests please

Posted by kelvin - 2007/11/16 17:40

---

If there are any games that you remember from your childhood that you would like to see in the Ludicrus arcade then let me know. So far I've had a request for Chuckie Egg which I hope to track down this weekend.

:cheer:

I also added Doom following a request - unfortunately the version available is somewhat limited in both gameplay and appeal.

Rest assured that I'm on the look out for something better....

---

Frozen Bubble loaded yesterday afternoon but I didn't have time to tell anybody here but it appears a couple of people have tried it already. It's under classic games rather than puzzle games but maybe I need to reorganise the folders.

Keep those requests coming....
