## 4th Edition D&D at Ludicrus

Posted by Myandar - 2007/11/21 00:25

---

Given that we have access to a projector unit in one of the rooms at Kesgrave Community Centre. I'd like to know everyone's feelings on playing 4th Edition Dungeons and Dragons at Ludicrus.

Are you going to be happy playing D&D by laptop/projector?

Or are you the purist that would like to keep D&D at the pen and pencil level?

Myandar

I suppose that as it's the new aspect of the game, it should be done via laptop/projector, show off the new way of roleplaying.

Is this a new program that comes with 4th Ed that lets you show where your character is on the screen? I haven't heard about it, and I can't find anything on the Wizards website.
